PROFESSIONAL SUMMARY

Data Analyst with 5+ years of experience turning raw business data into clear, actionable insight. Skilled in SQL, Excel, and Power BI/Tableau for data collection, cleaning, dashboard development, and KPI tracking. Proven record of automating reporting workflows, presenting findings to senior stakeholders, and supporting data-driven decisions across compliance, finance, and customer-facing teams. Statistics graduate with hands-on experience across insurance, EdTech, and consulting projects.

CORE SKILLS

- Data Analysis & Statistical Analysis — Python (Pandas, NumPy, SciPy, Matplotlib), SAS
- SQL — SQL Server, MySQL, PostgreSQL — data extraction, cleaning, and transformation
- Excel & Spreadsheets — advanced formulas, pivot tables, Google Sheets
- Dashboard Development & Data Visualization — Power BI, Tableau
- KPI Tracking, Trend Analysis & Business Performance Reporting
- Cross-Functional Collaboration & Stakeholder Presentation

WORK EXPERIENCE

Data Analyst — Noor Takaful Insurance Company | July 2025 – Present

- Extract and analyze large datasets from SQL Server to generate business and operational insights
- Design and maintain interactive Power BI dashboards tracking claims performance, compliance, and operational KPIs, enabling leadership to act on real-time data
- Automate data preparation and reporting with Excel (advanced formulas, pivot tables) and SQL, cutting reporting time by 30%
- Partner with compliance and finance teams to translate raw data into actionable reports, improving accuracy of regulatory submissions

- Present insights and recommendations to senior management, informing strategies that optimized claim resolution time and improved customer satisfaction

Data Analyst — Digital Bananas | May 2023 – July 2025

- Designed and maintained dashboards to monitor business performance metrics
- Performed data cleaning, transformation, and analysis using SQL and Excel
- Developed and delivered a data analysis curriculum tailored to diverse learner backgrounds and skill levels
- Prepared reports interpreting customer behaviour, market opportunities, market results, trends, and investment levels

Data Analyst — NIIT | September 2021 – January 2023

- Conducted in-depth lectures and workshops on data analysis topics and techniques
- Facilitated hands-on exercises and projects reinforcing theoretical concepts and practical applications
- Provided individualized coaching and feedback, strengthening students′ analytical and problem-solving abilities

PROJECTS

HR Analytics Dashboard — Personal Project | January 2026

- Built a Tableau dashboard enabling a client to compare employee benefit packages
- Advised the client on technologies to better utilize their data

Customer Analysis Dashboard — Virtual Client Project | February 2026

- Developed interactive Power BI dashboards to visualize customer behaviour, preferences, and engagement metrics
- Enhanced customer segmentation strategy, contributing to a 20% increase in targeted marketing effectiveness

EDUCATION

Bachelor of Science in Statistics — University of Ilorin, Kwara State, Nigeria | October 2016
